May they all see much נחת from all their children

Pișcolt, Romania \ Construction of gate

After many years of negotiations,
construction of the gate has finally begun.

The Committee looks forward to the generous contributions of the descendants enabling the work to go forward without delay.

Gyonk, Hungary Construction of gate continues

This week 20 meters of the broken wall was cleaned away (caused by the negligent work of the neighboring populace). In the process, several tombstones were uncovered.

Also, progress has been made in the negotiations to restore the borders to their correct place. This will enable the completion of the gate to surround the entire cemetery, like the rest of the territory of the cemetery that for many years has a sturdy gate surrounding it, built by the Committee members.
