After years of intense negotiations by the grandchildren, headed by the **Rav of Brod Shlit"a** and Avoyseinu members, we finally received permits to build the fence | We express our thanks to the local populace for their assistance | After much effort we were successful in ascertaining the exact borders of the cemetery | A strong and durable fence is now being erected, made possible by the generosity of esteemed patrons | We hope to complete the fence and restoration of the ohel with the continued support of these donors.
