A brief overview on our weekly activities

Trip Chronicle

- **Legyesbenye:** The trip initiated at the Legyesbenye cemetery where HFPJC agents tried settling a long-time dispute which is hindering this project for months. Successful affiliation with a prominent lawyer has been forged, and agents are optimistic that this will yield the long-anticipated restoration.
- **Bialy Kamien:** In the following cemetery, HFPJC agents worked on verifying the ambiguous borders. An accurate, pre-war map will hopefully be obtained shortly, which will enable the final borders verification and, subsequently, the restoration.
- **Delyatin:** Opposition from neighbors has unfortunately stymied the completion of the fence. HFPJC agents and contractor personally met with the neighbors and arranged a compromising solution which will enable the area to be enclosed properly. The next phase, which will include the restoration of 1,000 gravestones, will be commenced right after the fence construction.
- **Rachov:** Due to the complicated works in Rachov, HFPJC agents personally visited the cemetery along with architectural experts. A viable plan to efficiently save the sacred site was reviewed and approved. The update that the project will be commenced on the following Monday was received by the descendants with supreme joy.
- **Szentmiklos:** Intervention was employed in favor of the cemetery, which has been badly desecrated when neighbors appropriated cemetery territory. HFPJC agents forged agreeable contacts which will hopefully lead to the return of the cemetery's integrity.

Breakthrough in Mogielnica cemetery!
