ASSESSMENT REPORT

ט"ס

Perhaps it will be possible to reuse the 63 meters of concrete presently in place.

although there is a fence on the street front side it's not on the right place. There were goyishe burrials done on the right side, where it borders the goyishe cem, so we can't put the fence on the right place, it could only be built on the street front in a way that the original borders should be visible. Wherever we build on the yiddish side of the cem we can't do any digging

Note: This Report is a rough estimate generated by the initial evaluation. details may change as project draws closer
